

MOBOTIX Showcases Open Alliance Integrations with Application Specific Solutions at intersec Dubai

21. Januar 2019

Intersec Dubai, 20 – 22 January 2019, Dubai International Convention & Exhibition Centre, Hall S1, Booth K34. MOBOTIX is exhibiting for the 12th time at intersec Dubai 2019. They are showcasing their solutions to this worldwide event which has shown a continuous growing and evolving trend over the past years. Along with the latest product releases and new innovations such as MOBOTIX NAS, MOBOTIX MOVE Range, the next generation video management software MOBOTIX Management Center (MxMC) 2.0, MOBOTIX is providing a deeper look into solutions applicable to all industries and needs that include:

- Facial Recognition
- A.I.
- Biometric Solutions
- Remote Power
- Surveillance Tower Fuel Cell Integrations
- Solar/Power Plant monitoring and analysis
- Storage

Together with their Technology and Solution Partners, MOBOTIX is demonstrating this array of new solutions at the show. The MOBOTIX solution for any application shows the versatility and flexibility of the products being offered.

“We’re always excited to be exhibiting at intersec Dubai, 12 years now. The UAE is a hub of technology innovation” says Phillip Antoniou, Vice President Sales Europe South/West & MEA, “We are looking forward to showing the true Cyber Security features of our solutions and the open flexibility we can utilize with our partners which bring new meaning to being an open solution focused company."

The supplementary range MOBOTIX MOVE cameras along with the premium video systems for the Mx6 technology platform, plus the new MOBOTIX NAS devices and MxMC 2.0. With MxMC 2.0, it is now possible to combine a unique, compatible hybrid solution not only the intelligent decentralized MOBOTIX IoT cameras but also the MOBOTIX MOVE cameras and third-party ONVIF S-cameras plus the new MOBOTIX NAS devices. An exclusive feature of the NAS devices from MOBOTIX is that they are pre-installed with the MxMC interface software, which facilitates centralized access to all camera recordings via an MxMC client. This applies to the decentralized MOBOTIX IoT cameras as well as to the MOBOTIX MOVE series and/or those supplied by third parties.

About MOBOTIX

All over the world sites are protected by using MOBOTIX IP video technology. It delivers absolute reliability even in the most challenging conditions. From Oil Rigs in the North Sea, to World Heritage Sites in remote deserts, whether it is helping scientists at an Arctic research centre or greeting climbers at the top of Mount Everest; MOBOTIX equipment is designed for durability to provide the best overall return on investment. An extended operating lifetime is guaranteed and further enhanced by continual software upgrades.
