

## Milestone Systems VMS Integrates All Current MOBOTIX Cameras

**December 20, 2018**

**Langmeil, Germany, 20 December 2018** – Milestone Systems, the world's leading provider of open platform video management software, has released Device Pack 10.1a, which supports all optical and thermal MOBOTIX Mx6 cameras as well as the entire MOBOTIX MOVE camera range.

This product also integrates MxActivitySensor, a software-based professional analysis tool for detecting the movement of people and objects as well as the temperature events of thermographic cameras. For more information, visit:

The MOBOTIX MOVE range includes the first MOBOTIX cameras on the market that support the ONVIF profiles S and G as well as video streaming with a resolution of 3 and 4 MP at up to 30 frames per second.

Thanks to the integration of these cameras into the latest Milestone Device Pack 10.1a, MOBOTIX were able to take an important step towards globally marketing this complementary product range. The MOBOTIX MOVE range spans four different model versions, including a bullet camera, a fixed dome camera and two speed dome cameras. These are all powered via Power over Ethernet (PoE) and feature IP66/IK10 protection.

“In light of the globally increasing demand for our premium, cyber-secure cameras made in Germany, we are very pleased that the entire MOBOTIX camera range has now been integrated into the Milestone VMS,” says Philipp Helmes, MOBOTIX Product Manager for Integration Solutions.

“We are certain that the MOBOTIX ONVIF-compliant products will quickly attract a great deal of interest on the market, and, through our support, also enable quick market penetration of the MOBOTIX MOVE product range,” emphasizes Vice President Products Jesper Just Jensen of Milestone Systems.

#### **About MOBOTIX**

MOBOTIX IP video technology is used around the world. This technology provides protection and offers absolute reliability, even when used in the most challenging of conditions. It helps scientists and researchers in places ranging from offshore platforms in the North Sea, to UNESCO World Heritage sites in far-off deserts, to research bases in the Arctic, and even greets mountain climbers on the peak of Mt. Everest. MOBOTIX products are industry leaders in the field of cybersecurity. Regularly released software updates accomplish this feat and improve on it, while ensuring an above-average operating time for the products. These advantages, together with long product life cycles, optimize return on investment.
