Data sheet

Due to its compact design the pillar is able to hold camera and infrared lamp giving perfect sight to the license plate.

Network boxes or PoE switches with LWL can be added optional securing the equipment from vandalism. Positioning of the aluminum case in almost any area in or outdoor is possible.

For usage on loose or sandy ground a concrete fundament having at least 35x35 cm should be used. To avoid picture irritations caused by the sun a roof can be added to the acrylic glass pane with a variable cover.

Technical details

- **Material:** Aluminium
- **Height:** 910 mm
- **Width:** 180 mm
- **Depth:** 180 mm
- **Color:** RAL 9006 / other colors possible
