

Mobotix Appoints Michael Kosaros Business Development Manager Australia

Sydney, 7th August 2017. Michael comes to MOBOTIX after 2 successful years with Hills Security as a distribution Account manager. During this time, he was able to maximize Hills year-on-year growth, as well as become very familiar with MOBOTIX technology. Prior to this, he spent 10 years honing his skills as a project manager for J. K Security Services in Victoria, Australia, where he oversaw the installation of silent intruder detection systems in all government schools throughout the state.

Michael looks forward to bringing his experience and knowledge to an already very skilled Australian team. "I'm excited about the challenge of working with a leader in the IP surveillance technology space. With hard work and dedication, I hope to bring a fresh outlook for MOBOTIX in the region. I can't wait to join the ride."

About MOBOTIX

All over the world sites are protected by using MOBOTIX IP video technology. It delivers absolute reliability even in the most challenging conditions. From Oil Rigs in the North Sea, to World Heritage Sites in remote deserts, whether it is helping scientists at an Arctic research centre or greeting climbers at the top of Mount Everest; MOBOTIX equipment is designed with no moving parts to provide the best overall return on investment. An extended operating lifetime is guaranteed and further enhanced by continual software upgrades.
