Introducción

Este documento resume los principales pasos que tiene que dar un instalador/Tier 2 (nivel 2) en el Mx License Portal para recibir licencias (derechos) del distribuidor, gestionarlas en el portal y asignarlas a sus clientes finales. Estos incluyen principalmente los siguientes pasos:

- 1) Iniciar sesión en la sección 1.1 del Mx License Portal
- 2) Añadir usuarios adicionales de su empresa, en caso necesario. Ver sección 1.2
- 3) Crear cuentas y contactos de clientes finales en la sección 1.3
- 4) Repartir (y asignar) derechos (con ID de activación de licencia) recibidos de su distribuidor a sus clientes finales en la sección 1.4

La activación de las licencias se describe en el documento «Activación de licencias»

Explicación general

Proceso de inicio de sesión (login)

- MOBOTIX crea todos los distribuidores en el portal, inclusive un usuario para cada uno con el rol de usuario administrador del portal
- El distribuidor crea todos sus instaladores/partners en el portal según necesiten acceso al mismo, incluyendo un usuario para cada uno con el rol de usuario administrador del portal
- ---> Automáticamente se enviarán emails con la contraseña y el enlace al portal a todos los usuarios creados
- Las contraseñas se han de cambiar de inmediato
- El instalador crea todos los clientes finales en el portal sin concederles acceso al portal
- Los usuarios administradores tienen la posibilidad de dar acceso al portal a más usuarios de su empresa

Proceso de pedido

- El cliente final pide una licencia de producto al instalador
- El instalador pide una licencia de producto al distribuidor
- El distribuidor pide el producto a MOBOTIX
- MOBOTIX crea un elemento en la línea de derechos (Entitlement Line Item), lo reenvía al distribuidor y envía un email con el ID de activación, etc.
- El distribuidor reparte el Entitlement Line Item al instalador en el portal y envía un email con el ID de activación, etc.
- El instalador reparte el Entitlement Line Item al cliente final en el portal, envía un email y lo activa a través del portal o MxMC

1. Instalador vendiendo a un cliente final

1.1. Inicio de sesión

- Tier2 (nivel 2) ha recibido un email de su distribuidor con un nombre de usuario (su dirección de correo) y contraseña
- ¡¡¡Cambie la contraseña!!!
- URL para el inicio de sesión: <u>https://mobotix-fno.flexnetoperations.com/flexnet/operationsportal/logon.do?</u>
 <u>logoff=true</u>
- Elija un idioma (alemán o inglés)
- Inicie sesión en el portal para usuarios de MOBOTIX
