

MOBOTIX Partner Program

We enable solutions “Beyond Human Vision”

We are developing and producing intelligent IP video systems known for their high level of security, uncompromising reliability and premium “Made in Germany” quality since 2000. We are pioneer in Video Security Industry and set standards in data security. In terms of IoT, our video systems are computers with lenses, working intelligently and with embedded storage capacities. We sell our solutions through qualified distributors, dealers and partners around the world.

We have built a partner program with **three levels of partnership** to provide you powerful benefits and help you, our partners, to grow your long-term business opportunities. **Our Partner Program** does not only offer competitive conditions, but also comprehensive service and know how. We update our partners by professional trainings and training documentation and thus keep you informed about the latest developments in **IP video technology, home automation, industrial application and methods for planning and sales**. In order to give you significant advantages in the market, we support our MOBOTIX Partners with marketing material, innovative products “Made in Germany”, and also put you in contact with new customers.

We from MOBOTIX take care of our partners in every step of a project, and thus, for many years now, have been establishing a trustworthy basis for a Partner Program. We’ll help you grow to earn even more.

And: We hate nothing more than the word WE. That’s why we’re all about YOU!

Interested in becoming a MOBOTIX Partner? Please contact our regional sales team for more details.

¹ MOBOTIX provides a number of resources to support its Partners in their Projects. These resources include, amongst others, sending a MOBOTIX Technical Project Engineer on site or sharing solution-specific expertise from within the global MOBOTIX Partner Society.

² Partners to give consent in compliance with GDPR.

³ The Sales of the MxMC Advanced Service License requires proven expertise with regards to the design and installation of MOBOTIX solutions. As such, MxMC Advanced Service Licenses are only available for resale to end users to Silver and Gold Partners.

⁴ Actual purchase price will be determined by your authorized channel.

⁵ MOBOTIX provides assistance to its Partners in proof-of-concept installations which aim to demonstrate the capabilities and fitness of MOBOTIX solutions to serve an end user's requirements.
