

Quick Guide – MOBOTIX NAS & MOVE/ONVIF Cameras

Setting up MOBOTIX NAS/MxManagementCenter Using **MOVE/ONVIF** Cameras

V 08.05.20

This document is valid for the following MOBOTIX NAS models

Product Name	Item Number	Product Label
MOBOTIX NAS 2-Bay/8 Channels	Mx-S-NAS2a-8	251-G
MOBOTIX NAS 4-Bay/16 Channels	Mx-S-NAS4A-16	451-G
MOBOTIX NAS 8-Bay/32 Channels	Mx-S-NAS8A-32	873U-G

Minimum requirements for software versions

- MOBOTIX NAS: Mx-NAS2-4A-4.3.4.0807, Mx-NAS8A-4.3.4.0807, ContainerStation 1.8.3.207, MOBOTIX NAS QVRProServer 1.2.1.0 (see MOBOTIX NAS Quick Install)
- MOBOTIX MOVE: SD1A → MB20181025RS, BC1A/VD1A → MB20181025RP
- MxManagementCenter: 2.2+

IMPORTANT: We recommend updating all system components to the latest software releases. Please download the latest releases of MxMC, MOBOTIX NAS, and MOBOTIX MOVE cameras from the MOBOTIX website www.mobotix.com:

- Support > Download Center > Software Downloads

Video Tutorials are available from the MOBOTIX website www.mobotix.com:

- Support > Download Center > Documentation > Video Tutorials

The **MOBOTIX NAS HDD Compatibility List** is available from the MOBOTIX website www.mobotix.com:

- Support > Download Center > Documentation > White Lists

A Note on Licensing

MxManagementCenter can show MOBOTIX IoT and MOVE cameras “as is”, i.e., without any further licensing. For bandwidth-optimized usage and professional applications, it is highly recommended to use **H.264** (requires a license for MxManagementCenter).

For more information on licensing models, please read the **Compact Guide MxMC 2.0** from the MOBOTIX website www.mobotix.com:

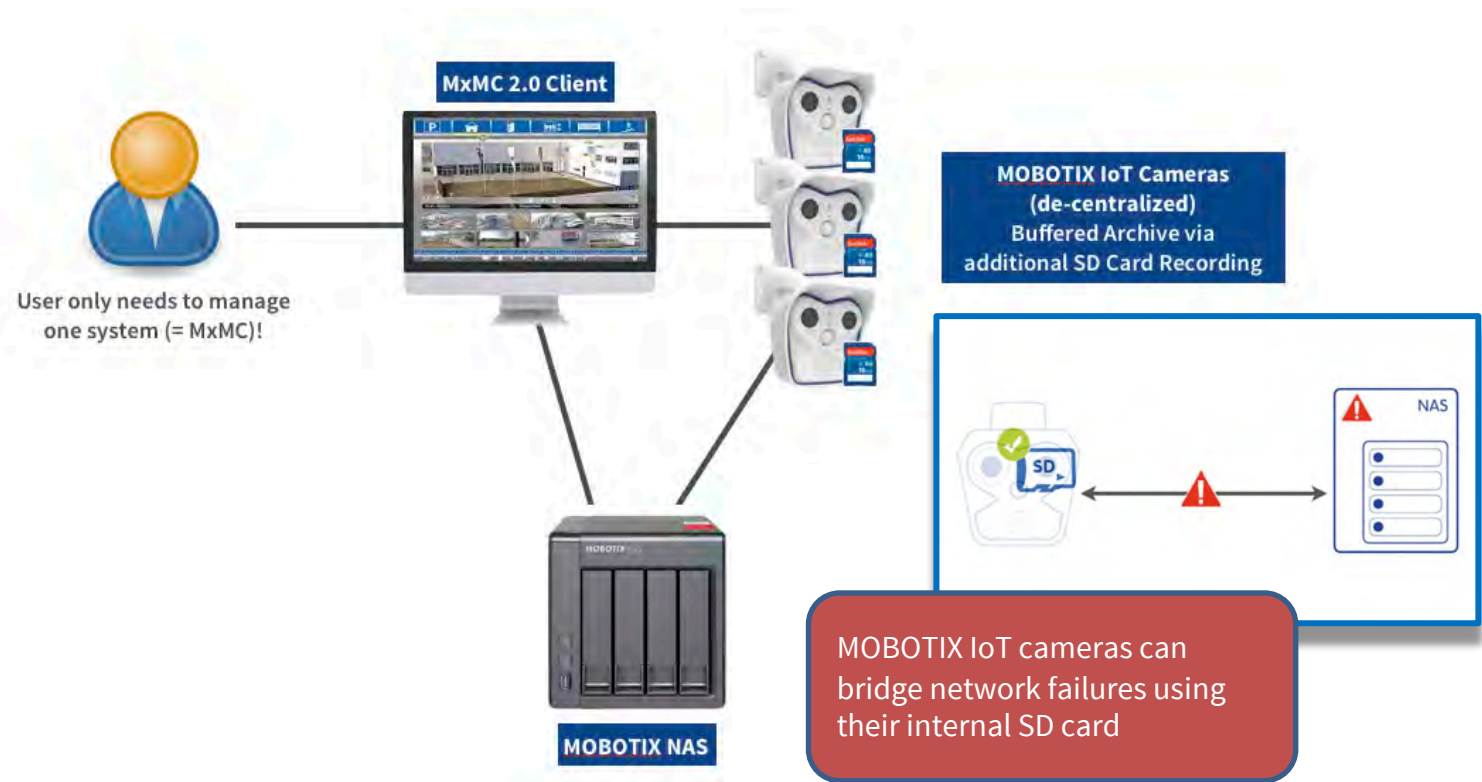

- Support > Download Center > Documentation > Brochures & Guides
- Only one Starter License per MxMC required to enable H.264

Password Security!

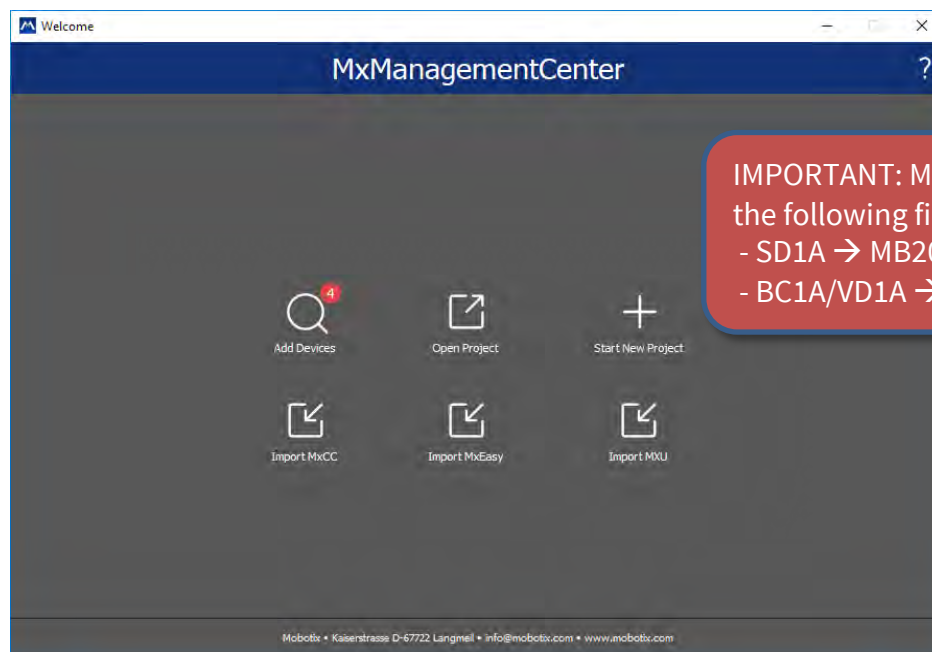

- **NEVER use the default access privileges!** Always make sure that you have changed the default passwords to strong passwords (numbers, lower/upper case letters, special characters)!
- The **default user** of the MOBOTIX NAS is “**admin**” and the **password** is “**admin**”.
- The **default user** of the MOBOTIX Cameras is “**admin**” and the **password** is “**meinsm**”.

The objective of this document is to set up a MOBOTIX NAS as a **storage device** for **MOBOTIX Move-Kameras** bzw. **ONVIF-Kameras**.

The **MOBOTIX NAS QVRProServer** recording software is required for recording from **MOBOTIX Move-Kameras** bzw. **ONVIF-Kameras** on the NAS. For most efficient configuration of camera settings, use the **Advanced Configuration** feature of MxManagementCenter.

1. Start **MxManagementCenter**.
2. Start the **Welcome Wizard** by clicking on **File > Welcome** in the menu bar.

3. Click on **Add Devices**. Then select the desired ONVIF S-compliant cameras you'd like to add to MxMC.
Note: It can take up to ten minutes to find an ONVIF camera. As an alternative, you can manually add the cameras to the list by clicking the “+” icon in the control bar.
4. Enter the access privileges. You need access privileges of a user with ONVIF administration level access. For MOBOTIX MOVE cameras, the admin user in the camera's web interface is also the ONVIF admin. For other camera brands (e.g., Axis), the roles for web interface admin and ONVIF admin are separate.

Step 2 – Adjust the Image Settings for Live and Recording

6

Configuration - MOBOTIX MOVE

Camera Configuration

Name: MOVE-10.192.0.67
Connection Protocol: MOBOTIX MOVE
URL: 10.192.0.67
Remote URL: DynDNS
User Name: admin
Password:
Environment: Default
Remote: ☐
SSL: ☐
Bandwidth: ☒ Hi ☐ Lo

Connection Settings

Authentication:
Protocol:

Bandwidth Settings HiRes

HiRes Profile: MxHiQuality
Video Encoder: VideoEncoder1
Video Codec: H.264
Frames per Second: 20 fps
Resolution: 1920x1080
Image Quality: 50%

Bandwidth Settings LoRes

LoRes Profile: MxLoQuality
Video Encoder: VideoEncoder2
Video Codec: H.264
Frames per Second: 1 fps
Resolution: 320x240

A Note on Image & Codec Settings:

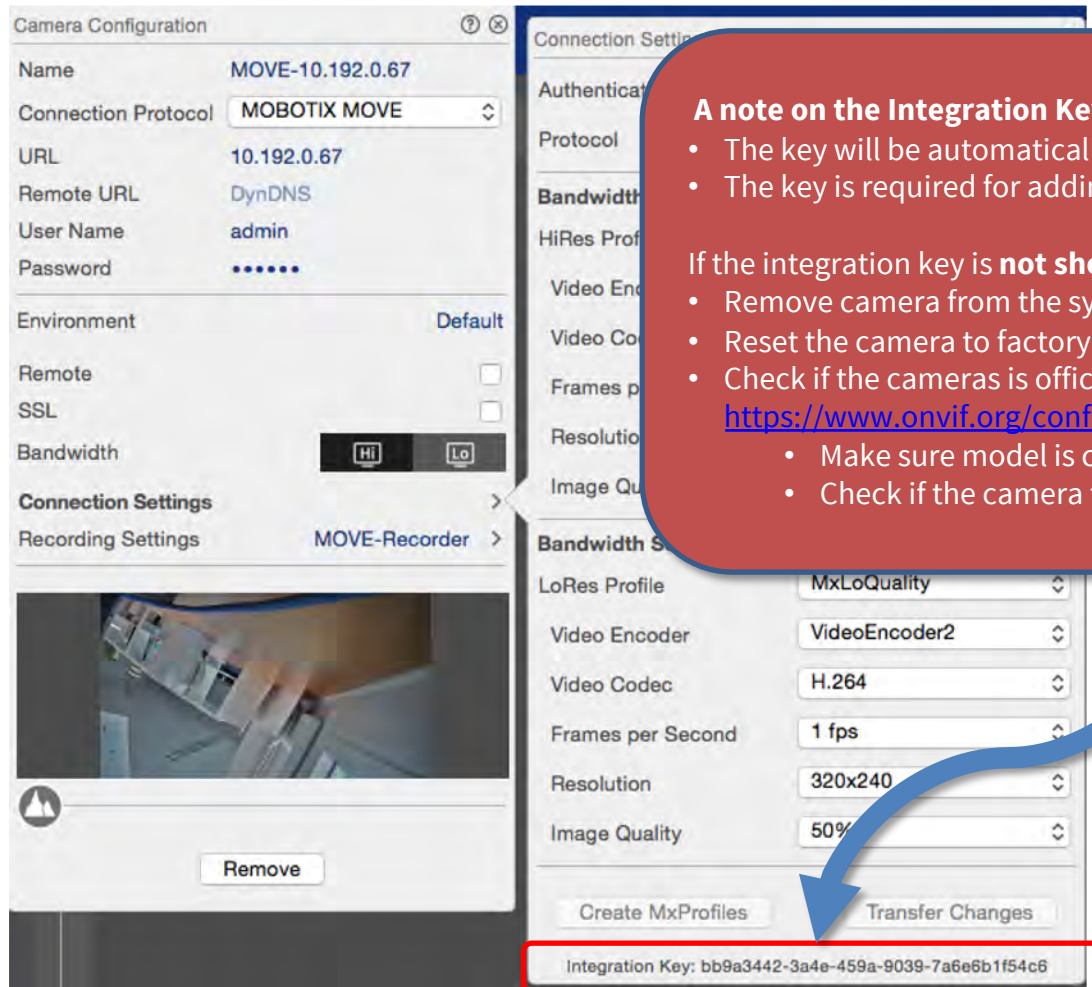

- MxMC defines the settings for **Live** and **Recording**.
- The HiRes profile **MxHiQuality** belongs to the **Recording** settings of the NAS.
- **H.264** Codec requires a **Starter License** for MxManagementCenter.

Open lock icon to enter edit mode, then...

1. Right-click one or more selected **MOVE/ONVIF** cameras.
2. Open **Connection Settings**.
3. Select your image and codec settings.

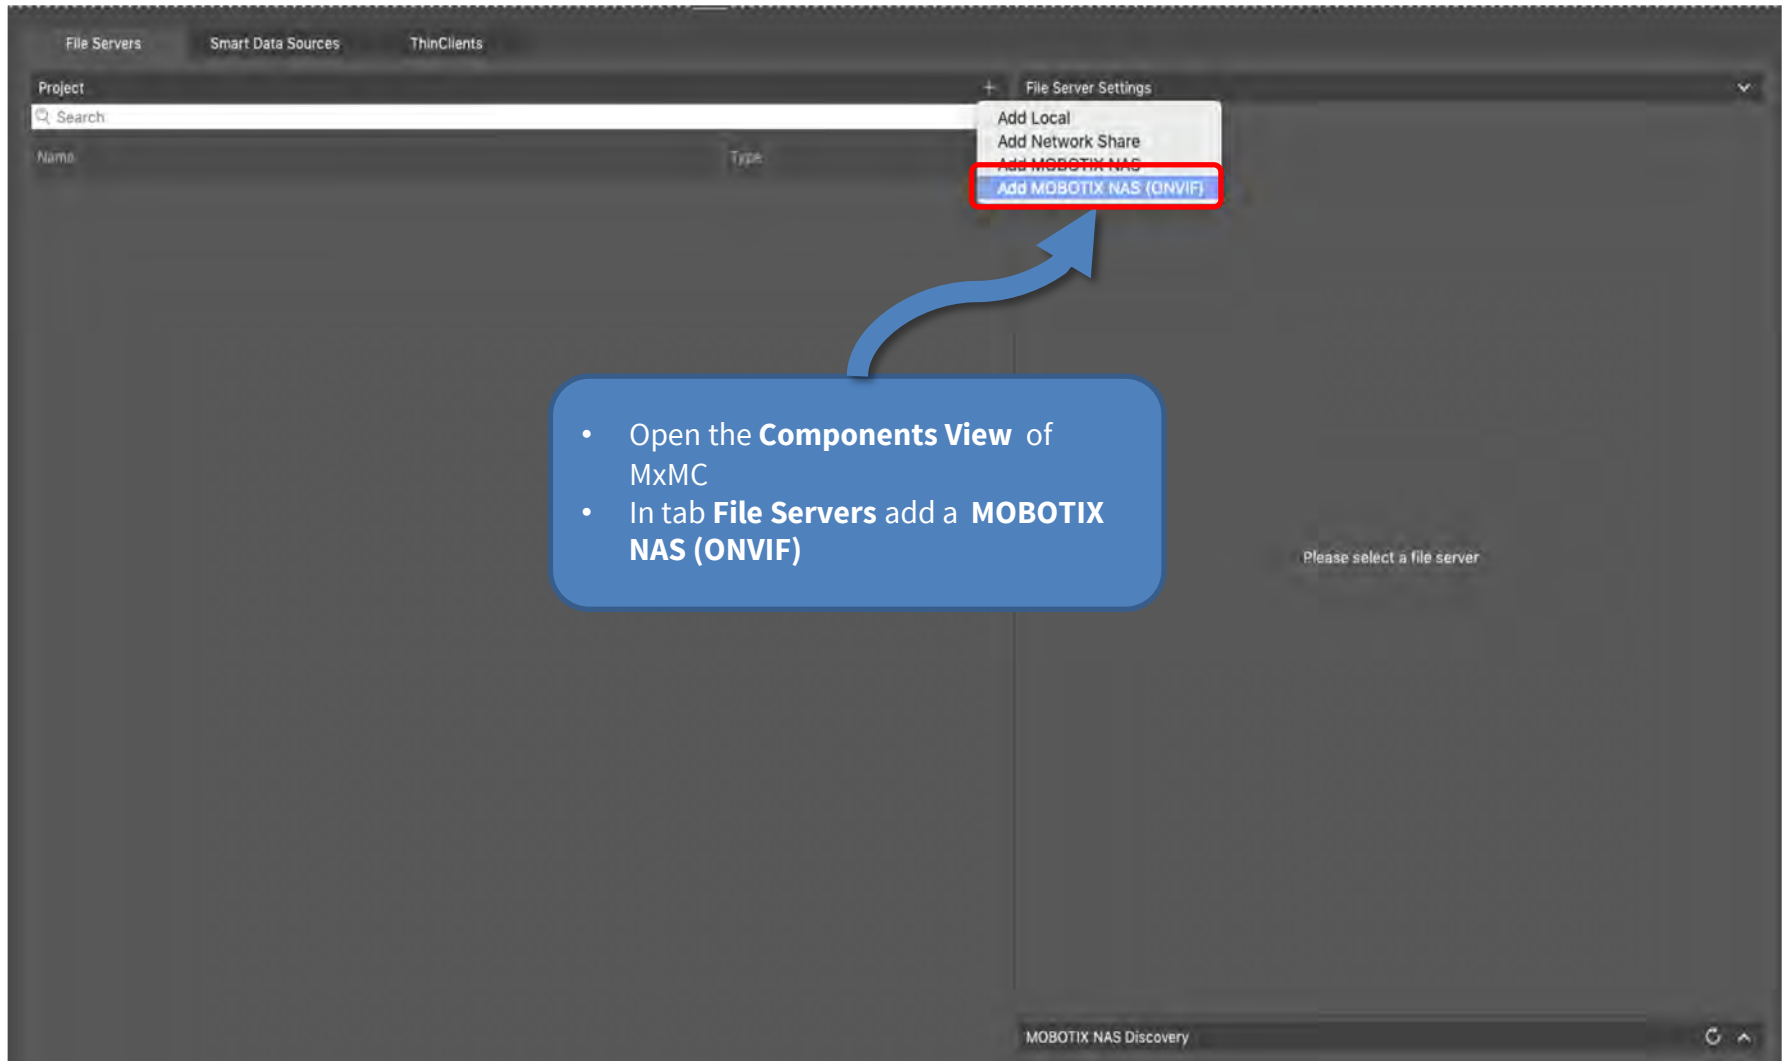

Step 3 – Check the Integration Key

7

Step 4: Adding NAS in MxManagementCenter (1)

8

The screenshot shows the MxManagementCenter interface with the 'File Servers' tab selected. A 'File Server Settings' dropdown menu is open, displaying options: 'Add Local', 'Add Network Share', 'Add MOBOTIX NAS', and 'Add MOBOTIX NAS (ONVIF)'. The 'Add MOBOTIX NAS (ONVIF)' option is highlighted with a red box. A blue callout box with an arrow points to this option, containing the following instructions:

- Open the **Components View** of MxMC
- In tab **File Servers** add a **MOBOTIX NAS (ONVIF)**

The main area of the interface displays a table with columns 'Name' and 'Type', and a message 'Please select a file server'. At the bottom, there is a 'MOBOTIX NAS Discovery' section.

Step 4: Adding NAS in MxManagementCenter (2)

9

Step 9: optionally update firmware (3)

17

Systemsteuerung

ControlPanel

Firmwareaktualisierung

Modell: NAS-251+G
Aktuelle Firmwareversion: 4.3.4.0807mx
Datum: 2018/12/20
Systembetriebszeit: 0 Tag (e) 3 Stunde(n) 12 Minute(n)

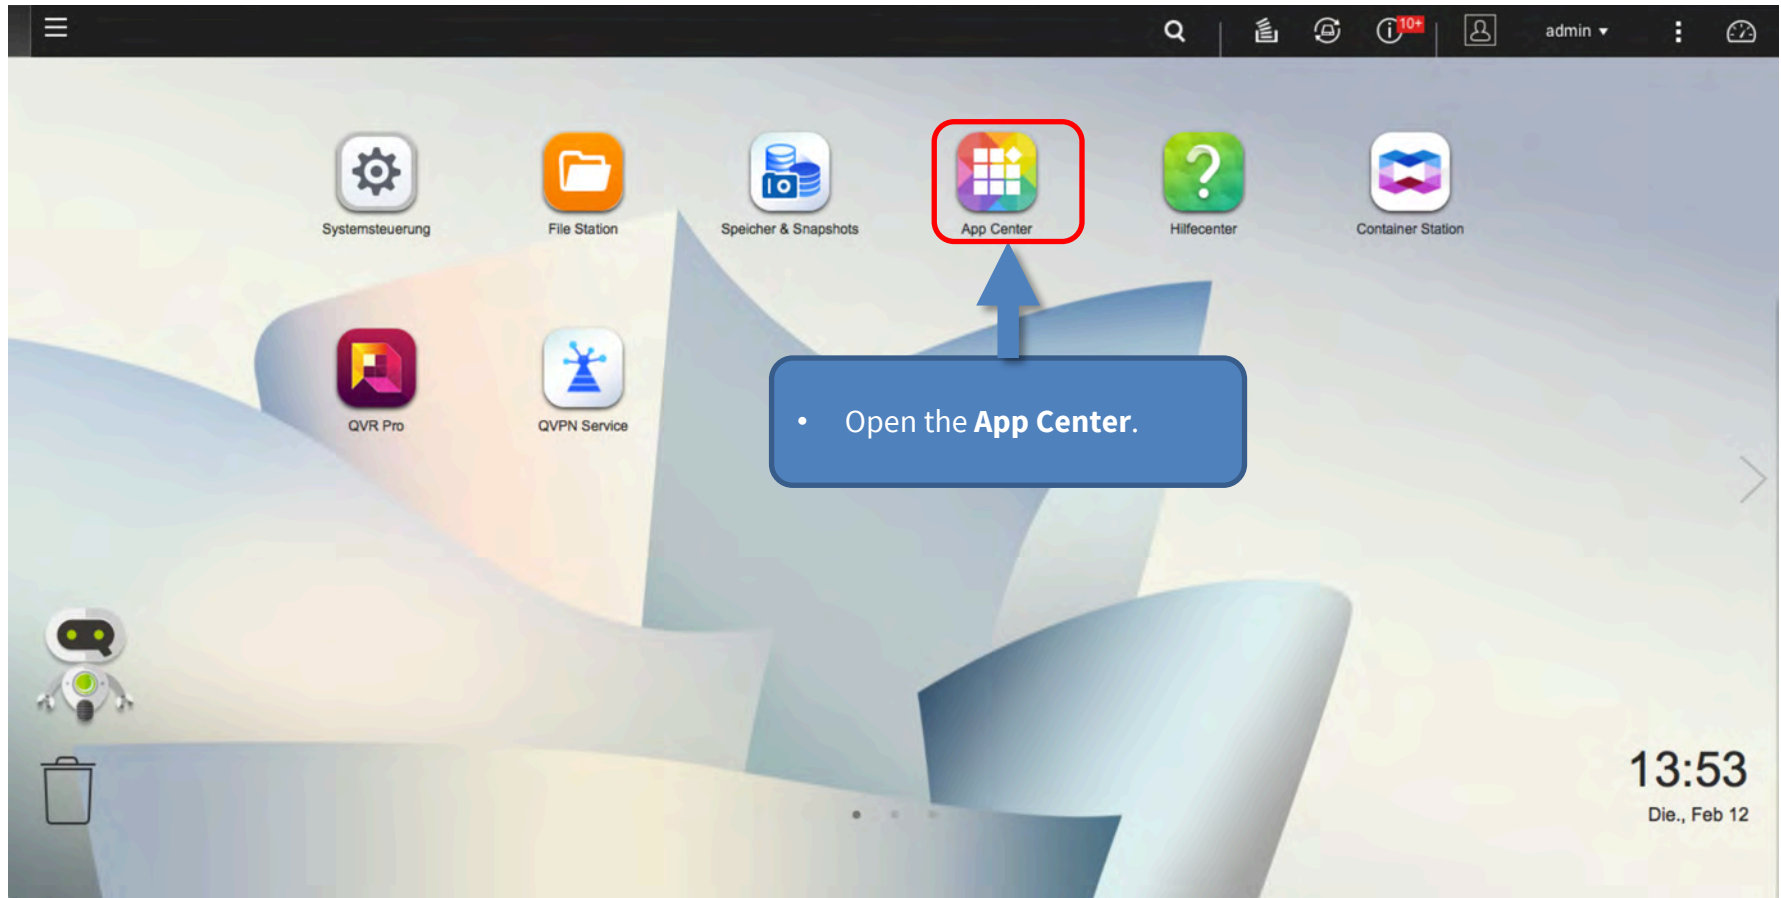

Stellen Sie bitte vor dem Aktualisieren der Systemfirmware sicher, dass das Produkt mit dem Internet verbunden ist.

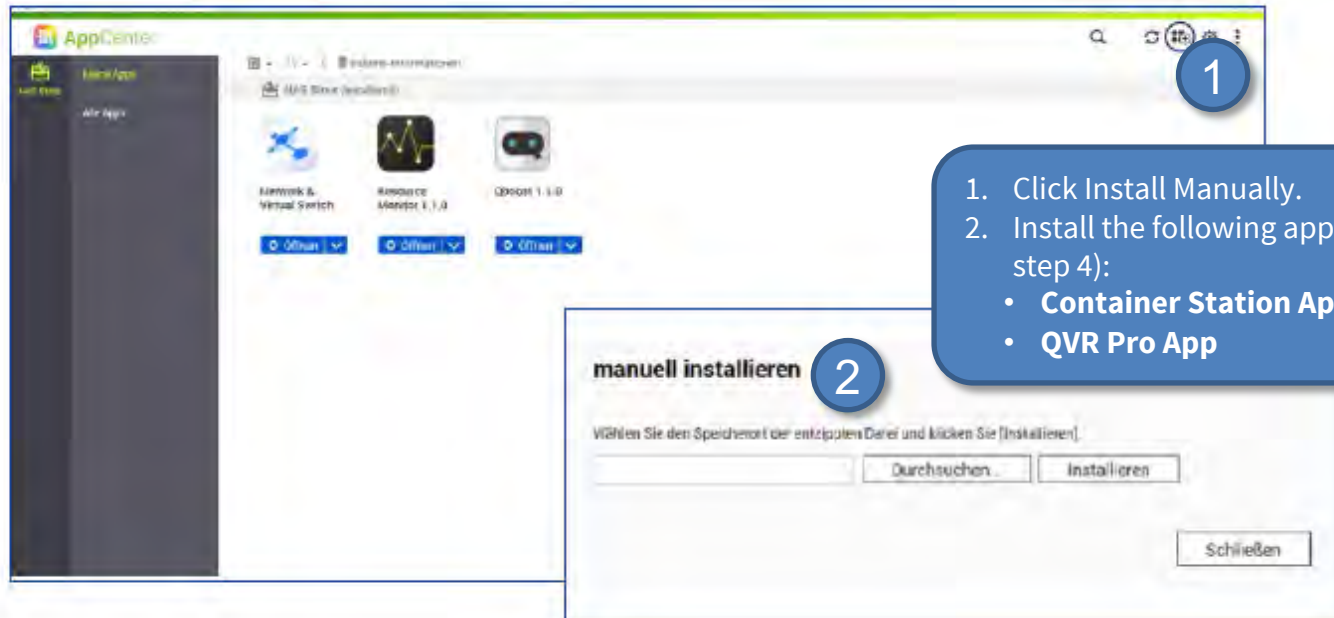

1. Schritt 2: Sichern Sie vor dem Aktualisieren der Systemfirmware alle Daten auf dem NAS.

2. Schritt 3: Klicken Sie auf [Durchsuchen...] um die neue Firmware zur Aktualisierung zu wählen.

Das Aktualisieren des Systems kann je nach dem Netzwerkverbindungsstatus zwischen mehreren Sekunden und einigen Minuten dauern. Bitte haben Sie etwas Geduld. Das System wird Sie darüber informieren, wenn die Aktualisierung des Systems abgeschlossen ist.

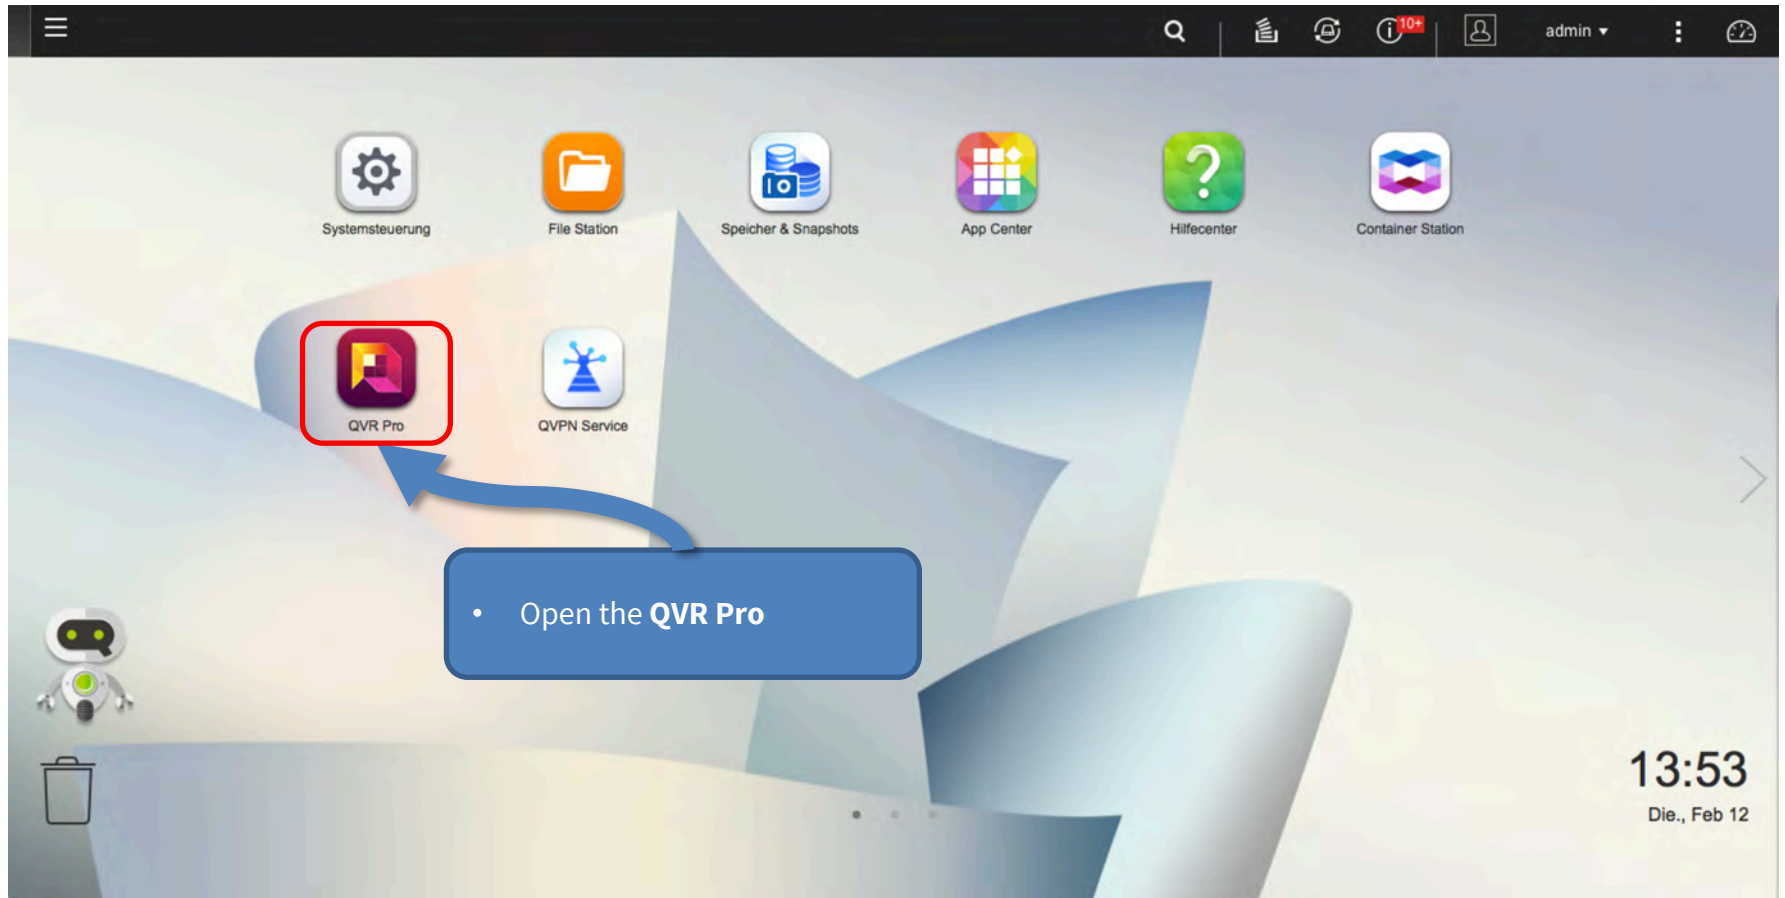

- Select the firmware (see step 4)
- Click on **Update System**
- Follow the instructions on the screen

Step 11: Initial setup of QVR Pro (1)

20

The screenshot shows the 'Anfängliches Setup von QVR Pro' window. At the top, a progress bar has four steps: 1. Anforderungen (highlighted), 2. Datum / Zeit, 3. Installation, and 4. Fertigstellen. A red callout box at the top right says 'Make sure that the system requirements are met!'. The main content area is titled 'Mindestsystemanforderungen' and contains a list of requirements, each with a green checkmark:

- QTS: Version installieren: QTS 4.3.4.20181220 ✓
- Container Station: Version installieren: Container Station 1.8.3207 ✓
- Speicher: 4 GB (installiert: 8 GB) ✓

At the bottom, there are three buttons: 'Abbrechen', 'Zurück', and 'Weiter'. A blue callout box with an arrow points to the 'Weiter' button, containing the text: 'When all system requirements are met, click **Next**'.

The screenshot shows the 'Anfängliches Setup von QVR Pro' window. At the top, a progress bar indicates four steps: 1. Anforderungen (checked), 2. Datum / Zeit (active), 3. Installation, and 4. Fertigstellen. The main content area is titled 'Einstellungen für Datum und Zeit' and includes instructions to ensure the date and time on the NAS are correct. It displays the current date and time as '2020/02/19 12:49:19 Mittwoch' and the time zone as '(GMT+01:00) Amsterdam, Berlin, Bern, Rome, Stockholm, Vienna'. A link is provided to change these settings. A warning icon and text advise clicking 'Aktualisieren' for the latest settings. A checkbox is checked, confirming the settings are correct. At the bottom, there are three buttons: 'Abbrechen', 'Zurück', and 'Anwenden' (highlighted with a red box). A blue callout box with an arrow pointing to the 'Anwenden' button contains the text: 'If date and time settings are correct, click **Apply**'.

☒ Ich habe bestätigt, dass die Einstellungen für Datum und Zeit richtig sind.

Abbrechen Zurück **Anwenden**

- If date and time settings are correct, click **Apply**

Step 12: Create Recording Space in QVR Pro

23

IMPORTANT: Reserve extra **Recording Space** if you'd like to add MOBOTIX IoT cameras later on!

IMPORTANT: Wait until the recording space is fully allocated and **do not reboot the MOBOTIX NAS or add cameras before this task is finished!**

1

Recording Storage

 Recording Storage

Overview

Recording Space

Recording Management

Rebuild Recording Index

Advanced Settings

Recording File Explorer

Recording Space

Specify where to save recorded videos and how many days QVR Pro records normal and event streams.

Quick Guide – MOBOTIX
NAS & IoT Cameras

1. Select **Recording Storage**.
2. Create **Recording Space**.

+

2

Available NAS storage: 129.00 GB

Note: To manage the storage space, go to [\[Storage Manager\]](#).

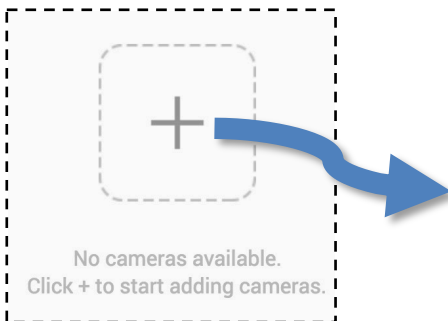

Set the required size for all recording spaces and leave the **Overwrite Threshold** at its default value (95 %).

Step 13: Add Cameras in QVR (1)

24

1. After the recording spaces have been completely allocated, open **Camera Settings** in QVR Pro (Recorder Software).
2. QVR Pro is only suitable for MOVE/ONVIF cameras. Therefore, make sure that no MOBOTIX IoT cameras have been selected. You can recognize MOBOTIX IoT cameras by their MAC address.

Add Camera

Camera Selection

The following table lists the cameras found in this NAS network. Select the camera(s) and click Next, or use the advanced search feature to find cameras on other networks. You can also use the filter feature to only display cameras of a specific brand and model. If the camera you want to add is not on the list, click Next to manually add the camera.

	Brand	Model	IP Address	MAC Address
<input checked="" type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.192.0.173	00:03:c5:c0:00:ad
<input type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.24.0.22	00:03:c5:18:00:16
<input type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.22.176.26	00:03:c5:16:b0:1a
<input type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.22.10.71	00:03:c5:16:0a:47
<input type="checkbox"/>	ONVIF	ONVIF Cameras (Fixed Settings)	10.1.1.91	24:5E:BE:21:83:50
<input type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.22.5.108	00:03:c5:16:05:6c
<input type="checkbox"/>	ONVIF	ONVIF ProfileS Cameras	10.22.10.149	00:03:c5:16:0a:95

Cameras selected: 2, Cameras that can be selected: 14 ⓘ

Scanning 100%

Step 1/4

Important Note: Do not select any MOBOTIX IoT cameras!

Check the MAC address:

- MOBOTIX MOVE: 00:03:C5.**C0**.XX.XX
- MOBOTIX IoT: 00:03:C5.**XX**.XX.XX

Step 14: Add Cameras in QVR (2)

25

3. In the next window, check whether MOBOTIX NAS has recognized the desired camera brand and IP address. Continue by adding any missing camera data, such as:
- **Name:** Enter a unique description (used in QVR Pro only).
 - **Account/Password:** Access data must correspond to an ONVIF admin user for ONVIF S cameras.

Add Camera

Edit Camera Selection

The following table lists the cameras selected in Step 1. From here, you can edit the camera connection information or manually add other cameras. You can also select multiple cameras for batch editing tasks such as deleting, logging in, and testing.

Preview	Name	Brand	Model	IP Address	Port	RTSP Port	Account	Password	Action
<input type="checkbox"/>	ONVIF_ONVIF	ONVIF	ONVIF ProfileS Cameras	10.1.6.14	80	554			<input type="checkbox"/> Test

Cameras selected: 1, Cameras that can be added: 0

Cancel

Step 2/4 Back Next

1 Enter **Name** (unique description).

2 Enter **Account** and **Password**.

3 Click **Test** button for each camera.

Note: The **Preview** image will not appear in this step.

Step 14: Add Cameras in QVR (3)

26

4. Define the recording settings (**Normal Recording** = continuous recording, **Event Recording** = event controlled) in this step.

Note: When the camera is added, two profiles (MxHiQuality for HiRes and MxLoQuality for LoRes) are automatically created in MxMC. The values set in MxMC for MxHiQuality are automatically transferred to the MOBOTIX NAS.

Note: Detailed instructions for configuring event recording can be found here:

<https://www.qnap.com/en/how-to/tutorial/article/detecting-events-in-qvr-pro>

Add Camera

Profile setting MxHiQuality

Recording Settings	Recording Streams
<input checked="" type="checkbox"/> Enable Recording	<input checked="" type="checkbox"/> MxHiQuality
<input checked="" type="checkbox"/> Normal Recording	<input type="checkbox"/> MxLoQuality
<input checked="" type="checkbox"/> Event Recording	
<input type="checkbox"/> Enable audio recording on this camera	<input checked="" type="checkbox"/> Stream1
<input type="checkbox"/> Edge Recording Recovery	<input checked="" type="checkbox"/> MxHiQuality
<input type="checkbox"/> Enable Autosnap	

Note: Simultaneous operation of **Normal Recording** and **Event Recording** is currently not supported. It is recommended to use **Normal Recording** for PTZ cameras.

Cancel Step 3/4 Back Next

Step 15: Finish MOBOTIX NAS Setup

27

1. Finish and then close the wizard.
2. In the **Camera Settings** window, check that all cameras have been added to the QVR Pro software.
3. Wait about 5 min until the MOBOTIX NAS has **connected to the new cameras**.

The screenshot shows the 'Camera Settings' window in QVR Pro software. The window title is 'Camera Settings'. Below the title bar, there is a header section with buttons 'Add', 'Edit', and 'Delete', and status indicators: 'Total channels:8', 'Used channels:1', and 'Available channels:7'. A table lists the camera settings. The first row shows a camera named 'MxMove_Vandal' with a status of 'Connecting'. A red box highlights the 'Status' and 'Recording Settings' columns for this camera. The 'Status' column shows 'Connecting' in orange. The 'Recording Settings' column shows 'Stream1: Recording stopped (No connection)' and 'Frame rate: 0, Bit rate: 0 bps' in orange. A blue arrow points down to a second screenshot of the same window, where the camera 'MxMove_Vandal' now has a status of 'Connected' (green checkmark) and 'Recording Settings' showing 'Stream1: Recording' and 'Frame rate: 20, Bit rate: 6.2 Mbps' in blue.

Channel	Camera Name	Status	Recording Settings	Brand	Camera Model	Network Info	Action
Channel 1	MxMove_Vandal	Connecting	Stream1: Recording stopped (No connection) Frame rate: 0, Bit rate: 0 bps	ONVIF	ONVIF ProfileS Cameras	Camera IP: 10.192.4... Network interface: Auto	[Edit] [Refresh] [Delete] [Share]

Channel	Camera Name	Status	Recording Settings	Brand	Camera Model	Network Info	Action
Channel 1	MxMove_Vandal	Connected	Stream1: Recording Frame rate: 20, Bit rate: 6.2 Mbps	ONVIF	ONVIF ProfileS Cameras	Camera IP: 10.192.0.67 Network interface: Auto	[Edit] [Refresh] [Delete] [Share]

The screenshot shows the MxManagementCenter interface. On the left, a sidebar lists cameras and groups. The main panel displays a table of recording paths. The right panel shows the configuration for a selected path. A blue callout box with four numbered steps guides the user through the configuration process.

Name	Typ
