MOBOTIX FF Group LPR App – Region US

Certified App for License Plate Recognition

The application recognizes with at least 95% hit probability single and double line license plates from the USA with Latin characters. The high-performance app is capable of monitoring up to three lanes. Depending on the amount of lanes, the application is suitable for vehicles with up to 200 km/h. Via granted & denied, any follow-up actions can be triggered when a recognized license plate belongs to a list (e.g. notification to security service). The app can be tested free of charge for 30 days and is activated by license for an unlimited period of time. Typical application areas for the app are: Parking management, access control and regulation, traffic monitoring.

- App delivers events via MxMessageSystem in real-time
- Integrated recognition protocol (last 1000 recognized license plates)
- Detection with at least 95 % accuracy (depending on environmental conditions)
- Camera can be online or offline
- Configuration of the application also via MxManagementCenter (free Advanced Config license required)
- Can be used with all cameras of the MOBOTIX 7 system platform
