NOTE!

This guide is only valid for **installing and connecting** the 2MP Bullet Camera. For more information on the camera, please refer to the other documents (see [Further Reading, p. 5](#)).

Important Installation Notes

- This camera must be installed by qualified personnel and the installation should conform to all local codes.
- To prevent damage, loosen the mounting screws before moving the camera.
- To ensure that the unit is not affected by vibration, twisting, etc. after adjusting the camera, tighten all mounting screws properly.
- This product must not be used in locations exposed to the dangers of explosion.
- Install this product in a well-ventilated spot and do not close off any vent openings.
- Do not use this product in a dusty environment.
- Protect this product from moisture or water entering the housing.
- Install this product as outlined in this document. A faulty installation can damage the product!
- Do not replace batteries of the camera. Risk of explosion may occur if the battery is replaced by an incorrect type.
- This equipment is not suitable for use in locations where children are likely to be present.
- External power supplies must comply with the LPS requirements and share the same power specifications with the camera.
- If using a Class I adapter, the power cord shall be connected to a socket-outlet with proper ground connection.
- To comply with the requirements of EN 50130-4 regarding the power supply of alarm systems for 24/7 operation, it is highly recommended to use an uninterruptible power supply (UPS) for powering the product.
- This equipment is to be connected only to PoE networks without routing to other networks.

NOTE! Observe the [MOBOTIX MOVE Installation Hints](#) document to ensure optimum performance of the camera features.

microSD Card Slot/Reset Button

microSD Card Slot

- Insert the microSD card into the card slot to store videos and snapshots.
- Do not remove the microSD card when the camera is powered on.

Reset Button

Press the Reset button with a proper tool for at least 20 seconds to apply the factory defaults.

NOTE!

It is not recommended to record with the microSD card for 24/7 continuously, as it may not be able to support long term continuous data read/write. Please contact the manufacturer of the microSD card for information regarding the reliability and life expectancy.

Camera Cabling

Ethernet Cable Connection

Connect one end of the Ethernet cable to the RJ-45 cable of the camera, and plug

the other end of the cable to PoE network switch.

NOTE!

- In some cases, an Ethernet crossover cable may be needed when connecting the camera directly to the PC.
- Check the status of the link indicator and the activity indicator LEDs of the switch. If the LEDs are unlit, please check the LAN connection.

- Green Link LED indicates good network connection.
- Orange Activity LED flashes for network activity indication.

Accessing the Camera

The 2MP Bullet Camera supports all current browsers without requiring any additional plug-in or add-on (e. g. for H.264/H.265/MJPEG support).

Camera Login

The default IP address of the camera is: 10.x.x.x. By default, the camera starts as DHCP client and automatically tries to get an IP address from a DHCP server.

1. Enter the camera's IP address in the URL bar of the web browser and hit "Enter".
2. Enter the default username (**admin**) and password (**meinsm**).

NOTE! ID and password are case sensitive.

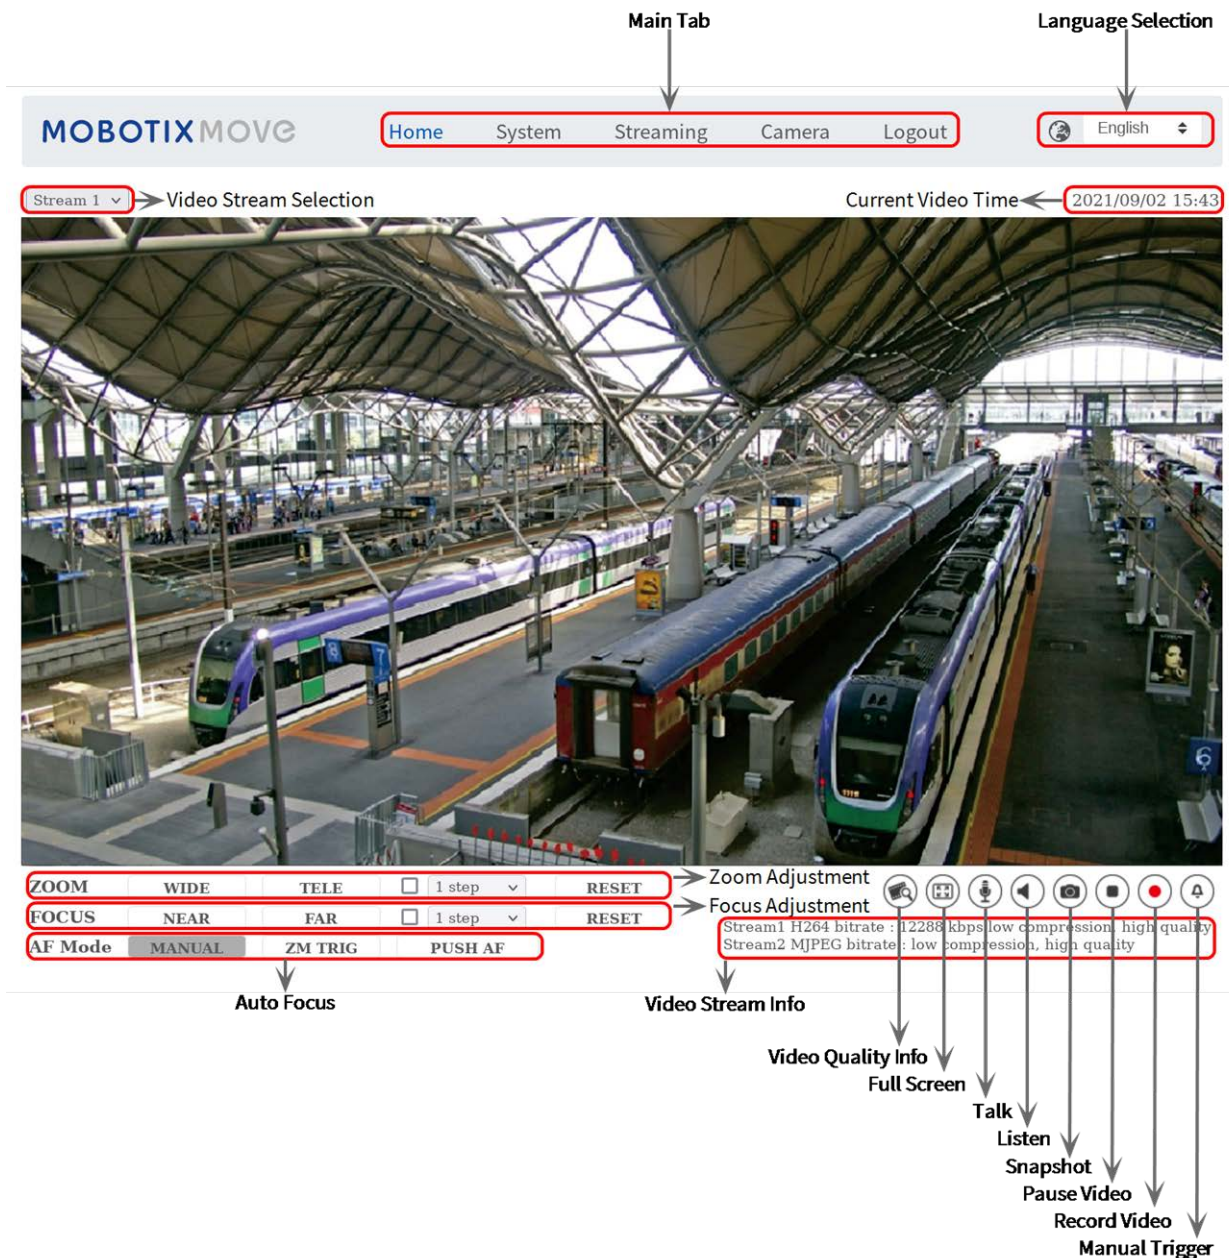

CAUTION! It is strongly advised to change the default password. Refer to the menu tree of your camera for further details.

3. In the Viewer installation window, click on **Next** to start installation.
4. The status bar will show the installation progress. After the installation is completed, click on **Finish** to exit the installation process.
5. Click on **Finish** to close the Viewer installation page.

NOTE! Once the Viewer is successfully installed, the Home page of the IP camera will be displayed as the figure below.

Browser-Based Viewer

The main page of the IP camera user interface is shown as the figure below. The function buttons vary depending on the camera model.

Camera Maintenance

It is recommended that you perform the following maintenance tasks at regular intervals to keep the 2MP Bullet Camera in good working condition:

- Clean the front glass using plain water and a soft cloth.

CAUTION! Do not use any detergents or alcohol to prevent damage to the coating!

- Check the mounting and make sure that all screws are properly tightened to prevent the camera from falling down.
- When opening the camera, add a silica gel dry pack to prevent condensation accumulating at the front glass.
