MOBOTIX Vaxtor LPR incl. Vehicle Make, Model, Color and Class App

Worldwide usable vehicle identification

Based on deep learning processes the certified Vaxtor LPR incl. Vehicle Make, Model, Color and Class App recognizes license plates as well as vehicle's make, model, color and class (MMC). The app can be used at maximum speeds of up to 160 km/h (LPR only) and 100 km/h (plus MMC) on two lanes and by an extremely high hit probability of over 99 per cent.

Via blocking or permission lists, authorized, blocked or searched vehicles can be defined specifically. For example, a gate or barrier in an access road can open or be blocked automatically.

- Subject to license, single payment for unlimited use
- Recognition of license plates with global country coverage
- Recognition of make, model, color and class
- Over 99% accuracy and high-speed performance
- Use of blocking and permission lists possible
- App-integrated Smart Data Data Interface for data retrieval with MxManagementCenter version 2.4 or higher
