

Technical Specifications

Vaxtor License Plate Recognition / Dangerous Goods App

Worldwide usable with over 99% accuracy

The certified Vaxtor License Plate Recognition / Dangerous Goods App recognizes, based on deep learning processes, characters from all over the world. The application can be used at maximum speeds of up to 160 km/h on several lanes with an hit probability of over 99 percent. Via easily editable lists, authorized, blocked or searched vehicles can be defined specifically. For example, a gate or barrier in an access road can open or be blocked automatically. The app can be tested free of charge for 30 days and is activated by license for an unlimited period of time.

- Recognition of license plates with global country coverage
- With over 99% accuracy optimally suited for license plate based access control
- Use of blocking and permission lists possible
- Free flow and signaled mode for LPR
- App-integrated Smart Data Data Interface for data retrieval with MxManagementCenter from version 2.4.
