MOBOTIX A&E

Architects. Consultants. Engineers.

Better than ever –
the A&E Program from MOBOTIX

At MOBOTIX, we have always been committed to pushing the boundaries of technology and design in the field of surveillance and security solutions. We are excited to announce our new Architect and Engineer (A&E) Program, designed specifically to collaborate with professionals like you and elevate the standards of excellence in the industry.

Why Participate in the A&E Program?

1. **Cutting-Edge Solutions:** Gain exclusive access to our latest technological advancements, including state-of-the-art surveillance systems, analytics, and intelligent monitoring solutions.

2. **Innovative Design:** Collaborate with our team of experts to seamlessly integrate our products into your architectural and engineering projects, ensuring optimal functionality without compromising aesthetics.

3. **Knowledge Exchange:** Engage in knowledge-sharing sessions and training seminars to stay up-to-date with industry trends and best practices.

4. **Priority Support:** Benefit from dedicated technical support, ensuring that your projects involving MOBOTIX solutions run smoothly from design to implementation.

5. **Networking Opportunities:** Connect with like-minded professionals and industry leaders through our exclusive events.

To join the MOBOTIX A&E Program,

simply visit https://www.mobotix.com/en/partner/architects-planners and use the Button: "**Contact us for more information**".

After sending off your email, your personal MOBOTIX A&E contact will get back to you.

Stay Connected:

Keep an eye on your inbox for upcoming emails detailing **product** and **solution program updates**, **events** and **opportunities**. You can also follow us on social media for the latest news and insights.
