

MOBOTIX SYNC USE CASE

LOGISTICS: Stockyard-Management

Make contexts transparent!

Task

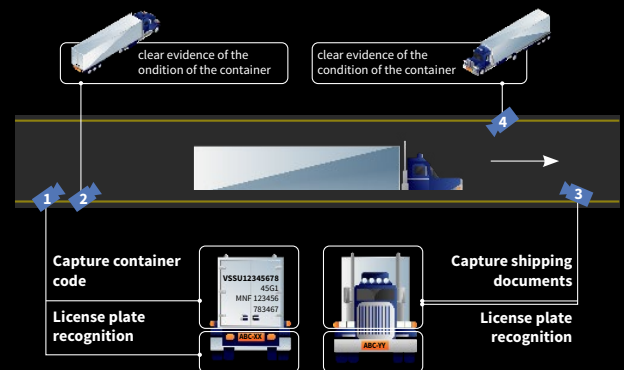

- Maintain an overview of containers, vehicles, and people in logistics terminals.
- Optimize personnel and resources for the processes. This saves time and money.

Solution

- MOBOTIX video systems monitor access and exit points and container movements on the premises.
- The data from the cameras and apps are collected and linked by MOBOTIX SYNC.
- The location and status of containers can be easily tracked at any time. Example: container „A“ arrived on truck „B“ with freight document „C.“

Advantages

- ✓ Automatically recognize the location and condition of containers
- ✓ Recognize trucks and documents
- ✓ Effective research saves time and money
- ✓ Simple complaint handling
- ✓ Valuable statistics for process optimization

When do you use MOBOTIX SYNC?
Find out now: sync.mobotix.com

Everything from a single source - premium quality included

MOBOTIX offers the necessary, **perfectly coordinated hardware and software components from a single source**. MOBOTIX video solutions provide companies and organizations with actionable data that improves operational efficiency and security.

The components of the use case

MOBOTIX M73

Flexible, high-performance weatherproof **M73 multisense camera with modular MOBOTIX app support**.

MOBOTIX S74

Four independent modules are combined in the weatherproof **MOBOTIX S74 camera, supported by MOBOTIX Apps**.

MOBOTIX MOVE ALPR Camera (optional)

Camera with integrated VAXTOR software captures **license plate, make model & color** as a plug & play solution.

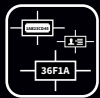

VAXTOR Make Model Color Recognition App

Reliably recognize license plates, vehicle **type, make, model, and color**.

VAXTOR VaxOCR Container Code Recognition App

The app **recognizes cargo container codes according to ISO 6346 with over 99% accuracy**.

VAXTOR Genesis App

VAXTOR Genesis **captures any text and numeric codes**, for example, on freight documents.

MOBOTIX SYNC

Data management software creates **insights and adds value like never before**.

VMS Integration

Integrated into MOBOTIX HUB, MOBOTIX SYNC provides **convenient access to data and videos**.
