

MOBOTIX THERMAL
SOLUTIONS

MOBOTIX THERMAL ECO

The cost-effective and flexible basic thermal solution with a wide viewing angle.

Reliably, cover a range of basic applications, for example, in object and perimeter protection. The **MOBOTIX p71 Thermal ECO** (indoor) and the **M73 and S74** (indoor & outdoor) with the **flexible Thermal ECO sensor modules** expand the portfolio of MOBOTIX 7 thermal cameras with the **wide viewing angles of up to 105° x 75°**.

MOBOTIX Thermal ECO Advantages:

- As flexible modules suitable for the **MOBOTIX M73** and all **S74 mounts** or
- **Pre-mounted** in the p71 Thermal ECO single lens camera
- Wide angle up to **105° x 75°**
- **CIF** resolution (320x240)
- Visible temperature range from **-40° to 330° Celsius**

MOBOTIX THERMAL ECO

Technical data

ECOnomic: Cost-effective Thermal ECO series

The Thermal ECO modules (56° x 42° and 105° x 75°) fit into both all available M73 and S74 mounts, which allows a flexible and discrete use, even in critical locations. Thus you can also easily retrofit existing MOBOTIX 7 cameras. In addition, the new p71 ECO Thermal camera is the **cost-effective thermal alternative** for indoor applications. The modules with CIF resolution (320x240) are basic thermal solution for applications where temperature detection is not required - e.g. for **object and perimeter protection in complete darkness** and **without violating the privacy (GDPR-compliant)**, or for **simple overheating protection under constant ambient conditions** (special warehouses, server rooms).

Form factor

- Sensor modules suitable for flexible use in MOBOTIX M73 and S74 video security cameras
- Pre-assembled in the p71 Thermal ECO

Variants/lens angle

- 105° x 75°
- 56° x 42°

Visible temperature range

- -40° to 330°C (-40 to 626°F)
- Typ. 65 mK

Thermal image sensor

- CIF (320 x 240 pixels)

Max. image resolution

- Can be scaled up to 4k UHD (3840 x 2160 pixels) or automatically to the size of the optical sensor module

Max. frame rate

- 9 frames per second

Protection classes

(M73/S74 modules only)

- IP66
- IK04
